

ROTARY FOREST AT GUELPH LAKE

Lend a hand as we plant an entire forest

JOIN US FOR 2016 PLANTING DAY SATURDAY, APRIL 23, 9AM TO 2PM

100 acres of new life

A healthy future

It's easy to help

Team effort

“Turn fields into forest”

That vision created the award-winning Rotary Forest at Guelph Lake. After eight years of planting, we have just five more years to go before the forest is completed in 2020.

Each year, families, corporate teams, youth groups and others turn out on the Saturday closest to Earth Day to plant thousands of trees. Join them!

Clean air, clean water, recreation and education

The Rotary Forest will clean our water, take tonnes of carbon dioxide and other pollution out of the air, provide habitat for the wild things, and be a quiet place for us to absorb the lessons of nature.

On the shores of Guelph Lake, the Rotary Forest will become a key part of the new Guelph Lake Nature Centre, used by thousands of children every year.

We make it easy for you to help

We provide refreshing water, shovels, and training on how to get your trees off to a great start.

Due to lack of parking at the Rotary Forest, free shuttles will take you from downtown Guelph and Lakeside Church to the planting site. All you need is suitable clothing for the weather, gloves and footwear suitable for digging.

Partners and supporters like you make it possible

The Rotary Forest at Guelph Lake is made possible by support from volunteers, donors and partners like the following....
